

Anweisung

The diagram illustrates the components of a Python print statement. A horizontal line is positioned above the code. A vertical line descends from the center of this horizontal line to the word 'print'. Another vertical line descends from the right end of the horizontal line to the opening quote of the string. A green bracket is placed below the word 'print', with a green line connecting it to the label 'Funktionsname'. A red bracket is placed below the string 'Hello World!', with a red line connecting it to the label 'Argument'.

```
print("Hello World!")
```

Funktionsname

Argument
