Like any good **paper writing service**, we can also help you know some important essay topics for cloning that you might encounter. So here we go!

1. We know that cloning is a possible phenomenon. Dolly sheep was a successful experiment in cloning; do you think human cloning should be legalized?
2. Cloning could be taken to the next level by making it possible to create human organs. As we face organ scarcity and in many cases, receptors do not find a proper match that causes their ultimate death. Do you think cloning is beneficial in recreating animal's body parts or organs?
3. Other than the regeneration of human body parts it can be used to create healthy cells, antigens, and other components of the human body mechanism. Do you think it may be useful to cure some fatal diseases?
4. Many people believe that cloning is against the natural law and the will of God. It is unethical and immoral for a human to create another human. What is your argument?
5. Therapeutic cloning is a viable technology
6. In the movie 'Frankenstein' a monster is created by a curious person after one of his experiments. The monster feels lonely and acts aggressively to get rid of his frustration. Do you think clones may possess monstrous characters?
7. Do you think human clones may harm people?
8. Human cloning will negatively affect us on a global level
9. Clones are also grown from cells. They possess organs, flesh, and blood. Do you think they may have a soul too?
10. Human organ trafficking is already a critical issue. Allowing cloning may not limit people to harm the clones and traffic their organs. What is your point of view?
11. Keeping in view the pros and cons of cloning. Do you think that cloning is the right path for science?
12. Research on a landscape project like human cloning will require huge amounts of research. Do you think such research is worth spending huge amounts?
13. As artificial intelligence, human clones may also work efficiently if mutated to perform better in the given conditions. Do you think they might be a useful human resource and is that ethically right?
14. Food and other resources are already scarce, human clones will need equal resources to survive. What is your opinion?
15. Humans are violent. They will obviously abuse their subordinate clones, do you agree with this statement?

All these, and many other, essay topics make great subjects for such essays. For further help, work with a professional [best essay writing service](#) and get the desired work and results.
